

# Current threats and trends

Tonu Tammer

Director of CERT-EE  
Estonian Information System Authority

## Threats and trends

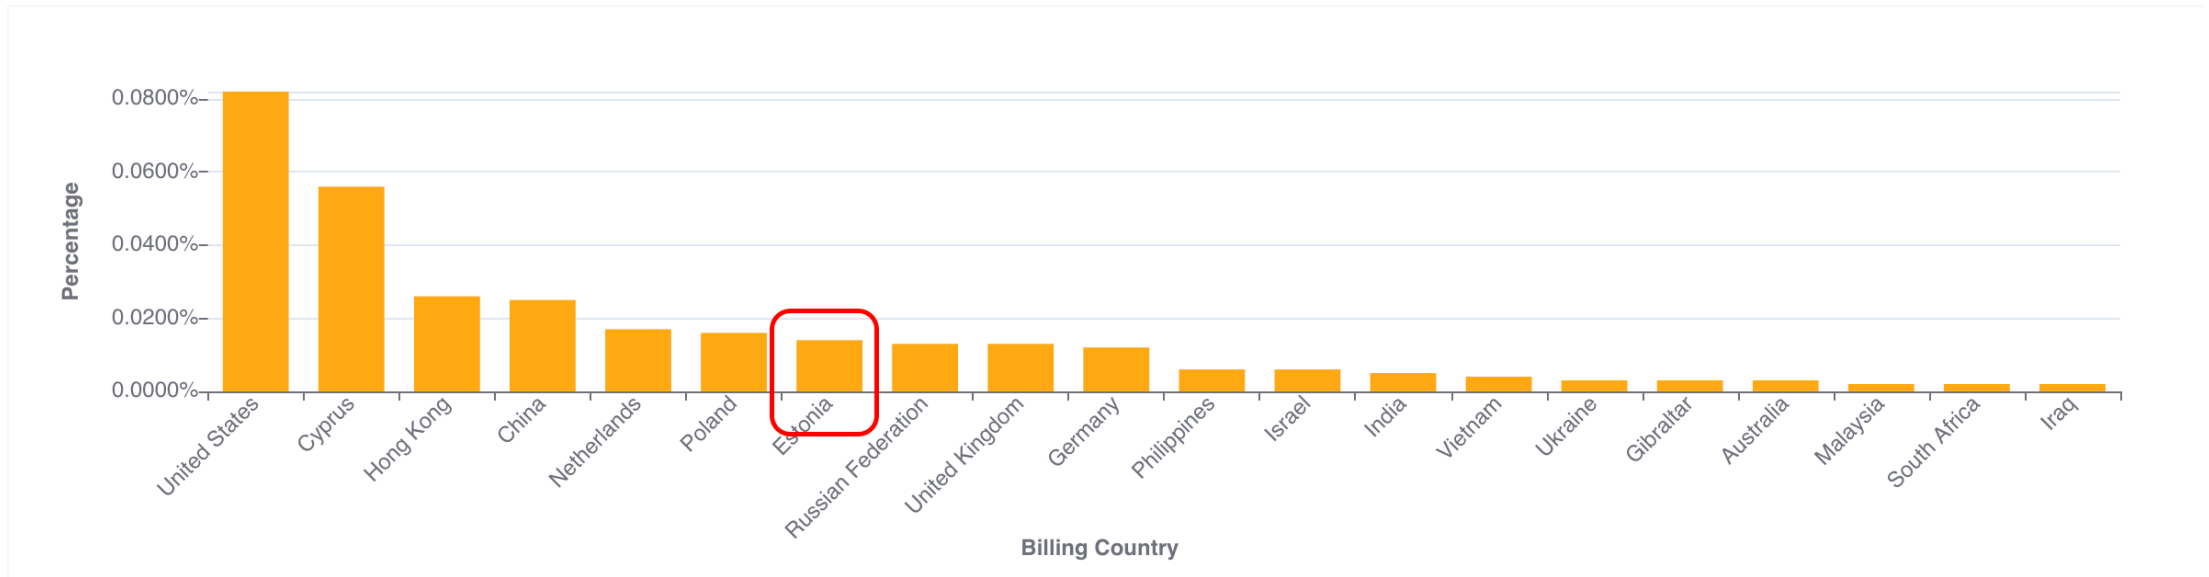

Financial motivation (75%) → invest small, earn big

- Phishing (data, credentials, agreements)
- Username and password alone is not secure
- Distribution of malware
- Exploitation of vulnerabilities (IoT, web)
- Logs

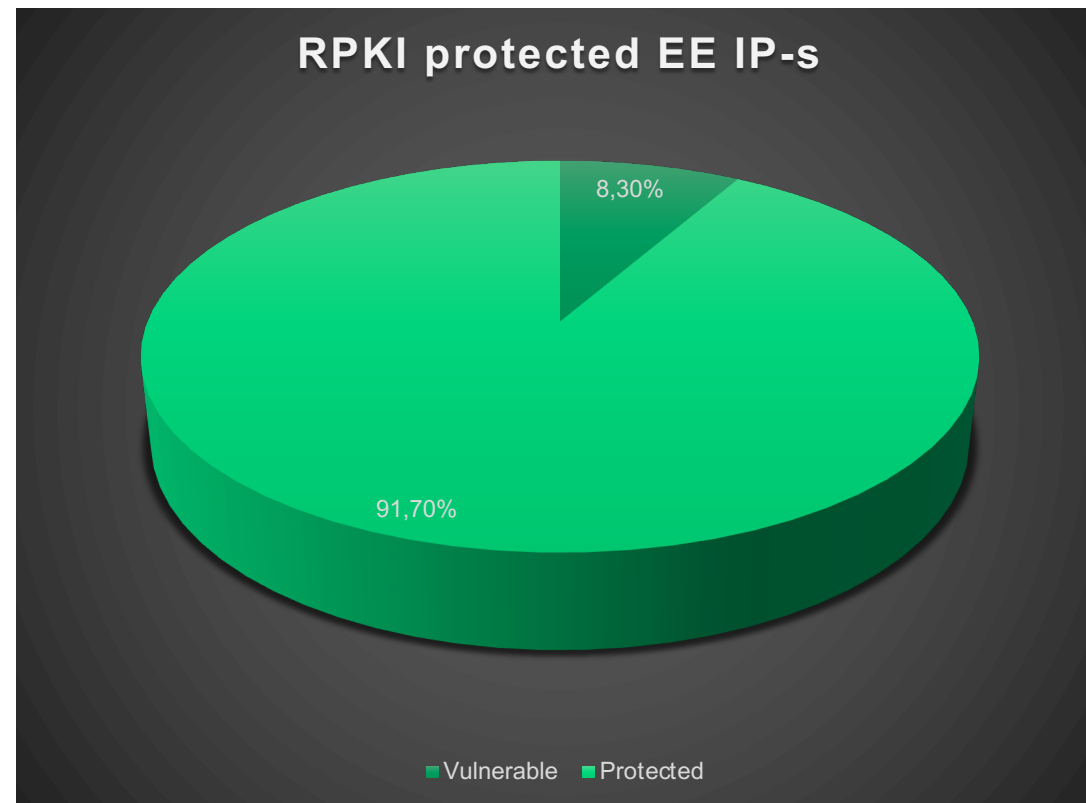

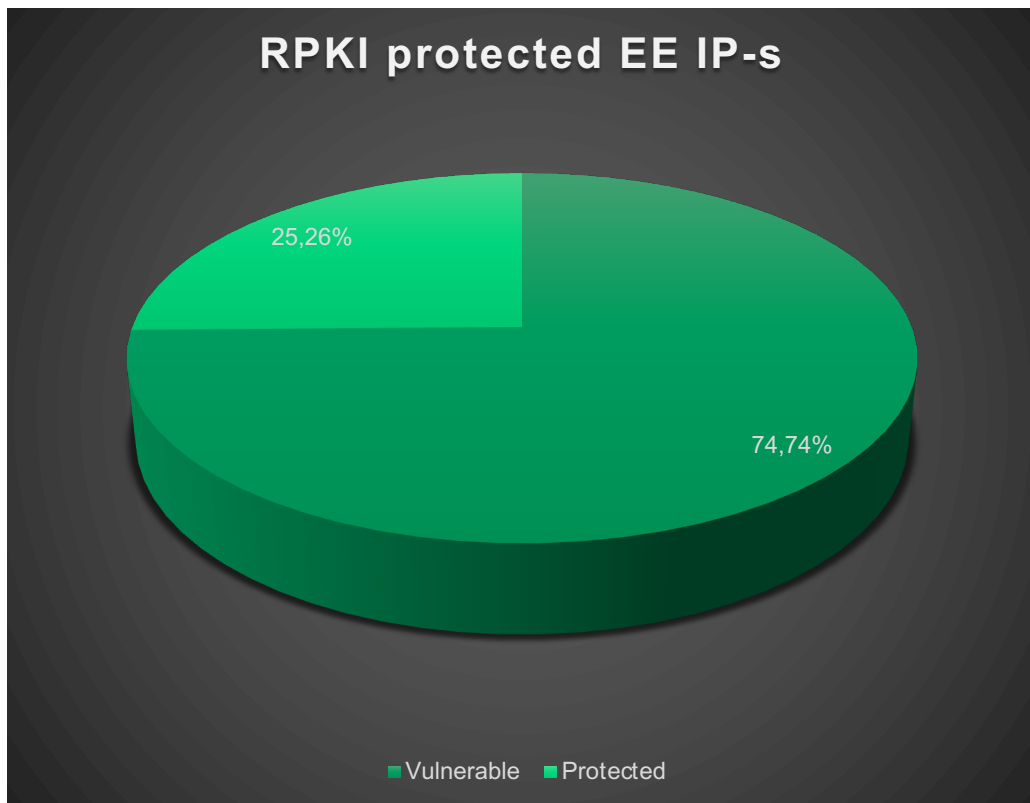

# DDoS attacks: Q2 2022

## Application-Layer DDoS Attacks - Distribution by target country

## Mitigating Internet traffic hijack risk

# Did you patch anything today?
