schools and institutions, each institution and school will be asked to inform about extra activities if any.

What measures are foreseen to handle project risks (e.g. conflict resolution processes, etc.)?

We can identify these risks:

- personal sense of a safe environment which respects and protects rights, we will arrange - travel insurance (including damage or loss of luggage); third party liability (including, wherever appropriate, professional indemnity or insurance for responsibility); accident and serious illness (including permanent or temporary incapacity); death (including repatriation in case of projects carried out abroad).
- dealing with a project budget – we will organize a transnational project meeting with the topic of documentations of costs on the both sides and a collection of documents on the Czech side
- language barrier – some participants are not able to communicate in English - we involve a interpreter on each side
- lack of interest of the project from involved stakeholders - the project was precisely prepared and regularly discussed, all stakeholders are familiar with the work plan and outcomes
- conflict resolution processes – we will find an approach based on respect for individual interests and interpersonal relationships, a steering committee will solve all potential conflicts

Which activities and indicators of achievement (quantitative and qualitative) will you put in place in order to assess whether and to what extent, the project reaches its objectives and results?

Effective monitoring and evaluation will help ensure all to get the most out of our project. We will keep a close eye on how the project will be progressing, we will also be able to adapt our objectives and activities.

Our partnership will be evaluated by decision makers from the regional authority and school staff – all participants of the project. We will evaluate the partnership itself, as well as the project work undertaken.

Both partners decided to declare monitoring indicators:

- number of participants of mobilities on each side – 33
- number of people actively participating in project – vocational trainers, teachers, etc. - 50
- number of joint staff activities – 5
- number of recipes with learning/teaching materials - 6

The steering committee will be responsible for implementation of indicators and for evaluating of each activity, the communication will be mainly e-mail correspondence. After each mobility all participants will be asked to fill in an evaluation form in order to get information about achieved goals and fulfilled expectations of each single person.

Partnership itself will be evaluated by steering committee on the base of questionnaires, discussions with involved people.

Discussions with participants will be organized by head teachers

- impact on improving used methods
- enriching cultural awareness and so on.

grant for Project Management and Implementation: bank costs, exchange rate differences, food for cooking, publicity, telephones, office /paper, cartridges, pens.../, personal costs of people dealing with management issues

What target groups do you address in your activities plan?

Targeted groups: decision makers in the field of catering education and school staff at vocational schools

The project will give both the Czech Region and the French region the opportunity to all the institutions, by sharing their experiences, to begin a reflection and to nourish their practices.

More specifically, the impacts targeted for the different publics involved are the following:

Pupils:

- if contacts between schools are established, pupils will have chance to participate in different communitarian projects

Pupils and students benefit indirectly, their teachers and head teachers will use new tools and motivation coming from the project.

The project intends to support exchanging activities for pupils organized on the base of Erasmus+ projects. Both competent authorities will give a practical support for partner search in both places.

The schools' staff:

- improve school management by comparing practices, mutualisation of advantages and the comparing of tools

- developed cross-cultural knowledge

- live as an active European citizen

- reinforced European perspective for schools

- ease application for European programs

The competent authorities in both places in terms of education and school management:

- share good practice examples

- in-depth cross-cultural understanding between the departments of competent authorities

- reinforce and enlarge the existing contacts and to extend their scope

F.1. Involvement of Participants With Fewer Opportunities

G. Follow-up

G.1. Impact

What is the expected impact on the participants, participating organisations, target groups and other relevant stakeholders?

Pupils:

- If contacts between schools are established, pupils will have chance to participate in different communitarian projects
Pupils and students benefit indirectly, their teachers and head teachers will use new tools and motivation coming from the project.
The project intends to support exchanging activities for pupils organized on the base of Erasmus+. Both competent authorities will give a practical support for partner search in both places.

The schools' staff:

- improve school management by comparing practices, mutualisation of advantages and the comparing of tools
- developed cross-cultural knowledge
- live as an active European citizen
- reinforced European perspective for schools
- ease application for European programs

The competent authorities in both places in terms of education and school management:

- share good practice examples, share ideas of creating bigger institutions, support the idea of learning schools
- in-depth cross-cultural understanding between the departments of competent authorities
- reinforce and enlarge the existing contacts and to extend their scope

Local responsible authorities have been trying to initiate school partnership even in this very beginning stage of the project, they tried to identify effective partnership. During the preparing of the project the contacts between both places have been intensified.

What is the desired impact of the project at the local, regional, national, European and/or international levels?

Each partner currently assist schools to apply for Erasmus+ programs. The project will give authorities on both sides, thanks to the high visibility of the project, the opportunity of proving the strong interest of such a European cooperation project in the framework of EU programs and will contribute to encourage educational and training institutions to do the same.

- reinforced European perspective for schools
- ease application for European programs

The competent authorities in both places in terms of education and school management:

- develop mutual knowledge of each system of education in the perspective of developing new steps of cooperation in terms of education in the framework of the existing informal contacts between regions in order to strengthen the existing links between both places and to enlarge its scope
- develop cross-cultural understanding between the departments of competent authorities and act on existing practices thanks to the other's critical eye
- favour the use of common tools built in the framework of exchanges with tools previously developed on European level
- reinforce and enlarge the existing contacts and to extend their scope

How will you measure the previously mentioned impacts?

Our Partnership will be evaluated by school staff as well as local representatives. We will evaluate the partnership itself, as well as the project work undertaken.

Both places decided to declare monitoring indicators

The steering committee will be responsible for implementation of indicators and for evaluating of each workshop and activity, the communication will be by e-mail correspondence. After each activity all participants will be kindly asked to fill in an assessment form in order to get information about achieved goals and fulfilled expectations of each single person.

G.2. Dissemination and Use of Projects' Results

You are requested to elaborate dissemination plans. Please provide answers to the questions below.

To whom will you disseminate the project results inside and outside your organisation? Please define in particular your target audience(s) at local/regional/national/EU level and motivate your choice.

Both regions will regularly inform about the project on official websites and all partners will inform about the project on their websites. There will be 2 advertisements informing about the project in local newspapers on both sides. The final meeting will be held in Champagne-Ardenne and that is why local authorities in the Vysočina Region will organize a regional dissemination event for all people involved in education sector and involved stakeholders after finishing the last activity. A book or CD version will be distributed to all participants, the CD version will be available.

The Vysočina Region will arrange a retrospective photo exhibition at local authority.

Results of the project can be disseminated in meetings organized by each national agency in order to make testimonies. It can also be made at European level.

The project will be promoted in partners' websites and also social media will be considered and used for dissemination. Intermediate and final reports will be delivered to the National agency.

At national level, Regional authorities of the the Vysočina Region will disseminate the results within KVZ /krajská vzdělávací zařízení – regular country meetings/.

Who will be responsible for the dissemination activities within your partnership and which specific expertise has it in this area? How many resources will you make available to allow for the proper implementation of your dissemination plans?

The responsible body for the dissemination is /regional project team/ RPT. It will use experience from 3 previous Comenius region projects. Members of team are bodies regularly working with schools - The Rectorat of Reims and Vysočina Education, they regularly prepare in-service teacher training activities. Both will disseminate outcomes in their regions to all schools.

Resources - school contacts, regular meetings with schools, official meetings of school departments etc.

What kind of dissemination activities do you intend to carry out (relevance) and through which channels?

Websites and all partners will inform about the project on their websites - outcomes on websites

The final meeting will be held in Champagne-Ardenne

The Vysočina Region will organize a regional dissemination event for all people involved in education sector and involved stakeholders after finishing the last activity

A book or a CD version will be distributed to all participants, the CD version will be available on web.

The Vysočina Region will arrange a retrospective photo exhibition at local authority.

Results of the project can be disseminated in meetings organized by each national agency

Erasmus+ promotes an open access requirement for all materials produced through its projects. In the case your project is producing intellectual outputs/ tangible deliverables, please describe if and how you intend to promote the free access for the public, through the internet, to a digital form thereof. In case a limitation should be foreseen for the use of the open licence, please specify the reasons, extent and nature of this limitation.

The open access will be arranged - on website of Vysočina Education and Rectorat, all involved partners will have links.

How will you ensure that the project's results will remain available and/or will be used by others?

Vysočina Education and Rectorat - will be ready to assist with the results and using outcomes. Both regional authorities will inform all schools in the regions about outcomes and intellectual outputs.

If relevant, please provide any other meaningful information deemed necessary to give a comprehensive overview of your dissemination plans.

Both partners are responsible for secondary school education and are enthusiastic to use the outcomes - the cookery book and

experience from various workshops - in the school curricula of the secondary schools.

G.3. Sustainability

What are the activities and results that are planned to be maintained after the end of the EU funding including the needed resources to sustain them?

Both Regions have already planned activities for the next years regardless of the fact if the project is supported or not but the approving of the project will give more intensive dimension to all activities planned for future years. Local authorities will try to do their best in the field of partner search. Both Regions will contact all secondary school with offer to be named in a database partner search for schools from both Regions – information about school, training courses and intending project activities.

More broadly, this project aims at reinforcing the existing links between both Regions in order to allow the local stakeholders to develop new projects in life-long educational and training issues.

All involved schools will continue with partnerships either on the base of Erasmus+ projects or virtual contacts. Outcomes will be available on websites in both regions, the involved schools will use the Cookery book as teaching/learning resource and also other catering schools in the regions will be supported to use the materials. Material will become a part of curricula of a branch Chef – International cuisine.
